

Instructions: Use whatever format you would like to work on this assignment, but include in the filename the number of this quiz (i.e., 05) and your last name.

Photochemical Kinetics

- 1) The article that you read in preparation for this discussion section (available here: <https://pubs.acs.org/doi/10.1021/ar00081a002>) was an excellent summary of items that we have learned thus far in this course, and as such, provides a nice review of the topics. As such, I think we should open the floor to any questions regarding the article, and discuss it as a group by stepping through the reported equations.
