

**Instructions:** Use whatever format you would like to work on this assignment, but include in the filename the number of this quiz (i.e., 06) and your last name.

Photophysical Processes

- 1) The article that you read in preparation for this discussion section (available here: <https://www.science.org/doi/10.1126/science.aad6378>) provided new knowledge regarding topics that we have not covered thus far in this course. As such, I think we should open the floor to any questions regarding the article, and discuss it as a group, including going over a few slides.
